Studio Stefania Miscetti is pleased to present the Third Edition of the video review *She-Devil*, which welcomes a greater number of curators this year, from the youngest to the most established, proposing itself as an open platform towards new and different experiences. *She-Devil* is the name of a heroine in the Marvel Comics Universe (*Shanna the She-Devil*) and title of the famous 1989 Susan Siedelman film. In this circumstance it alludes, in a playful manner, to the diabolic and bizarre spirit with which the artistic experience investigates the day-to-day life. In continuity with the previous editions of the review, the videos, selected from both Italian and International sources, represent the female points of view and place the various fields of the video art research in direct contrast with one another. The purpose of the initiative is to stress, at times using irony, at times realism, the collective consciousness on themes such as female identity, the body as repository of representation and meaning, and personal experiences on universal dimensions, even when the very intimacy of the artists is at the forefront of their works.
